SUMMARY

A highly motivated and detail-oriented final-year Computer Science and Engineering student with a strong foundation in frontend development. Passionate about creating responsive, user-friendly web applications and eager to contribute to a dynamic development team. Quick learner with excellent problem-solving, design, and communication skills ready to grow and innovate in a professional environment.

EDUCATION

CMR Institute of Technology <i>Bachelor of Technology in CSE (DS) – 8.03 CGPA</i>	Hyderabad, Telangana (2022-2026)
Vagdevi Junior College <i>Intermediate in MPC – 86.8%</i>	Miryalaguda, Telangana (2020-2022)
Navajeevan High School <i>SSC – 10.0 GPA</i>	Miryalaguda, Telangana (2019-2020)

TECHNICAL SKILLS

Languages: C (Basics), JavaScript (Intermediate), Java

Databases: MySQL

Frontend Technologies: HTML, CSS

Developer Tools: VS Code, Git, GitHub, Netlify

Coursework: Data Structures & Algorithms, OOPs, DBMS

PROJECTS

Expense Tracker | HTML5, CSS3, Bootstrap, JavaScript, LocalStorage [GitHub-Link](#) | [Demo](#)

- Developed a JavaScript Expense Tracker enabling users to log income and expense transactions with date and expense category selection for effective daily finance tracking.
- Implemented dynamic transaction management with add/delete actions and real-time calculation of Total Income, Total Expense, and Balance to ensure accurate results.
- Ensured 100% persistence using LocalStorage and built a responsive UI using CSS media queries for mobile compatibility across devices.

Weather App Using API | HTML5, CSS3, Bootstrap, JavaScript, jQuery [GitHub-Link](#) | [Demo](#)

- Developed a Weather App that allows users to search for any city and view real-time weather details including temperature, humidity, pressure, feels-like temperature, and visibility.
- Implemented additional modules such as Air Quality Index and Sunrise/Sunset timings, with a responsive design using CSS media queries for mobile compatibility.
- Integrated OpenWeatherMap APIs to display a 5-day forecast with weather icons and time-based temperature updates, dynamically rendering results on the UI.

Portfolio Website | HTML5, CSS3, JavaScript [GitHub-Link](#) | [Demo](#)

- Developed a personal portfolio website to showcase skills, projects, coding profiles, and contact details.
- Implemented responsive navigation with a mobile menu and smooth section scrolling using JavaScript for better user experience.
- Designed a mobile-friendly layout using CSS and media queries for compatibility across devices.

ACHIEVEMENTS

- Solved 300+ problems across Leetcode, Codechef, and GeeksforGeeks.

CERTIFICATIONS

- Smart Coder Certificate by Smart Interviews. [Link](#)
- Java and HTML Certifications on Simplelearn. [Link](#)
- Innomatics Research Labs (Workshop on Full Stack Web Dev). [Link](#)

CODING PROFILES
